

"WICKED COOL FOR KIDS!"

CLASS INFORMATION: As summer is in full swing, we will be offering two new and exciting programs! Wicked Cool For Kids is a locally-owned education company that has operated its programs in the Northeast since 2007. Their high-quality enrichment programming serves children from elementary through middle school. They encourage activity-based learning in a wide variety of topics which support recognized educational and developmental goals. Wicked Cool for that promotes learning by engaging a child's sense of excitement, wonder and fun. They encourage activity-based learning but also schedule time for play. Instructors are chosen not only for their educational background, but also for their ability to create a safe and comfortable setting to welcome a child – it makes for a wicked cool fall! Don't hesitate, register early!

Classes that every boy or girl entering grades 1-5 will enjoy!

Art Explosion: Art program engages kids in projects that help develop their creative streak. We use different media from collages, watercolors and wax-resist to printing and sculpture. All the activities are new for 2013 and the weekends with a fabulous show of kids' art work.

Energy Explorers: Kids build tons of fun projects to investigate the wide world of energy. In the morning, we explore alternative energy by building solar cars that harness the power by building a wind turbine. Kids also delve into the properties of balloon cars, catapults and rubber band racers as an investigation of potential and kinetic energy. In addition, we experiment with chemical energy and concoct fascinating formulas. Energizing fun!
