**AGENDA**

1. Call Meeting to Order
2. Public Comment
3. Approval of Minutes
  - a. Regular Meeting: October 15, 2024
4. Appointments/Resignations – Arts & Culture Advisory Commission; Tax Exemption & Credit Advisory Committee
5. Discussion/Action Items
  - a. Lead Service Inventory Project Update – Steve Dalton, Water & Sewer Superintendent
  - b. Water Rates: Multi-Unit – Bob Kelly, Water/Sewer Advisory Committee; Stephen Cronin, Public Works Director
  - c. Pavement Management Program Update – Paul Vlasich, Town Engineer
  - d. Complete Streets Discussion; ARPA Funds Request – Dave Sharples, Town Planner; Stephen Cronin, Public Works Director
  - e. Fund Balance Discussion – Corey Stevens, Finance Director
6. Tax Abatements, Veterans Credits & Exemptions
7. Permits & Approvals
8. Town Manager's Report
9. Select Board Committee Reports
10. Correspondence

11. Review Board Calendar
12. Non-Public Session 91-A:3 II(a)
13. Adjournment

Niko Papakonstantis, Chair  
Select Board

Posted 10/24/24 Town Office, Town Website

Persons may request an accommodation for a disabling condition in order to attend this meeting. It is asked that such requests be made with 72 hours notice.

AGENDA SUBJECT TO CHANGE

## **Approval of Minutes**

Select Board Meeting  
Monday October 15, 2024  
6:30 PM  
Nowak Room, Town Offices  
Draft Minutes

1. Call Meeting to Order

Members present: Chair Niko Papakonstantis, Vice-Chair Molly Cowan, Dan Chartrand, Nancy Belanger, and Town Manager Russ Dean were present at this meeting. Clerk Julie Gilman was not present. The meeting was called to order by Mr. Papakonstantis at 6:30 PM.

2. Board Interviews

- a. Megan Spencer for the Housing Advisory Committee
- b. Denise Short for the Sustainability Advisory Committee

3. Public Comment

- a. Mr. Papakonstantis discussed correspondence from resident Laurie Zwaan regarding Swasey Parkway. Mr. Papakonstantis said in March of 2022, there was a warrant article that proposed discontinuing the roadway from Water Street to the Gazebo. It passed rather overwhelmingly. It needed to go through legal steps, including going before a probate judge, which happened in January 2023. At that time the road was discontinued. There was a Citizen's Petition in March of 2023 that passed but was not binding because the road was already discontinued. We wanted to come up with a solution to allow folks to come in via Newfields Road and enjoy the Parkway, but it was delayed by the siphons project, which was finished in August 2024. The Public Works Director and Highway Superintendent came up with the plan we heard about on September 30<sup>th</sup>. The Swasey Park Trustees held a sitewalk in mid-September that was an open public hearing. The Trustees joined the Select Board on September 30<sup>th</sup> and were in agreement that this was a good temporary solution. Public Works has designed this in a way that cars will be able to safely turn around and park. The removal of the green space will improve the drainage of that area. Nothing here was sprung on anybody. This is a temporary solution and everything that's being done can be revised later. In terms of financing, the State Road Aid provided to the town during the pandemic will pay for it. Nothing will come out of the General Fund budget.

4. Proclamations/Recognitions

- a. There were no proclamations or recognitions at this meeting.

5. Approval of Minutes

- a. Regular Meeting: September 30, 2024

Corrections: Ms. Belanger said on Page 5, Transportation should be \$1.00.

**MOTION:** Ms. Belanger moved to approve the Select Board meeting minutes of September 30,

2024 as amended. Mr. Chartrand seconded. The motion passed 4-0.

6. Appointments

**MOTION:** Ms. Belanger moved to appoint Megan Spencer to the Housing Advisory Committee as a full member, term to expire 4/30/2027. Ms. Cowan seconded. The motion passed 4-0.

**MOTION:** Mr. Chartrand moved to appoint Denise Short to the Sustainability Advisory Committee, term to expire 4/30/2026. Ms. Belanger seconded. The motion passed 4-0.

7. Discussion/Action Items

a. RiverWoods Pilot Agreement

Mr. Chartrand recused himself from this discussion item.

Mr. Dean said this is the annual tax agreement with Riverwoods. It spells out what ratios Riverwoods pays for each type of building.

**MOTION:** Ms. Belanger moved to approve the annual tax agreement between the town of Exeter and the RiverWoods Company at Exeter NH, which includes The Woods, The Ridge, and The Boulders, for the annual tax agreement, and authorize the Select Board to sign said agreement. Ms. Cowan seconded. The motion passed 3-0.

b. MRI Final Revaluation Report

Scott Marsh, a Contracted Assessing Agent from MRI, gave a report on the revaluation. Mr. Marsh said MRI held hearings from the end of August through early September. We had 382 hearings. Mr. Chartrand asked if that's a lot, and Mr. Marsh said no, 5-6% is standard. Typical concerns are the increase in their property value and the impact it's going to have on their taxes. 36 people could not attend a hearing, so we reached out to them after the hearing process. He's still being contacted weekly.

Mr. Marsh said we looked at 2 years of sales, from April 2022 to April 2024. Overall the town's median ratio for that time period was 102%. The number of sales is slowing down but values are still increasing. The guidelines are COD, the Coefficient of Dispersion, and PRD [price-related differential], measures of how close to the median ratio properties are. The COD should be less than 15%, and we were at 8%; the PRD should be 1.03 and we're at 1.01. The overall equity of properties is in line with what we're seeing. The Town's total value went up 55%. Residential properties went up 61%, condos went up 61%, residential vacant land went up 61%, manufactured homes were 146%, and commercial went up 35%. We've finalized our values and we're waiting for the Board's approval for the MS1 report so we can get the rates set. Ms. Belanger asked when they will stop meeting with people. Mr. Marsh said when we submit the MS1 the values will be locked. If people still have questions, they'll have to go through the abatement process. We're sending letters now to give the results of the hearings.

Mr. Papakonstantis asked how many changes were made. Mr. Marsh said 25% don't see a change, 75% see some sort of change, usually minor.

Mr. Chartrand asked about the increase for manufactured housing. Mr. Marsh said the percentage is so large partly because the valuation was initially

so low. Five years ago they were selling for \$30-40,000. There's a high demand for an entry level property, and a very limited supply. About 20% of the hearings were for manufactured homes and 20% condos; 5% commercial and the rest residential. Roughly 1,000 properties are manufactured homes.

Mr. Marsh asked if the Board could make a motion to accept the valuations so MRI can prepare the MS1. Mr. Chartrand said this would cut off any changes. Mr. Dean said the extended deadline for the MS1 was today.

**MOTION:** Ms. Belanger moved to accept the 2024 Final Revaluation Summary Report prepared by Municipal Resources Incorporated. Mr. Chartrand seconded. The motion passed 4-0.

c. Downtown Parking, Traffic, Pedestrian Flow Analysis Final Report

Town Planner Dave Sharples was present to discuss the analysis. This was completed by Stantec. They presented their findings to the Board on February 12 [2024] and submitted a final report 5 months later which is pretty much the same. He added another strategy because of the Board's concern about paid parking on Water Street, to introduce permit parking in addition. We had a meeting last week on these strategies to give staff input, and he will be providing their recommendations for each strategy.

The first strategy is to share in the private parking supply. The town would identify facilities that could accommodate demand and reach out to property owners about a sharing situation. Staff recommended deferring this until the implementation of other tasks allows us to see how much private supply is needed. In Portsmouth, there are private pay lots, but we're not close to that.

Strategy 2 is to establish short term loading parking spaces. We only have 3 downtown. There is one in front of Otto, but it's only a 30 foot space and tough to get into for a tractor trailer. There's also one at the Town Hall and one where the Juicery just opened. We are in support of that; the next steps would be to engage businesses and propose striping changes, then submit them to the Board and the DPW for review. Some places do something like "loading zone until noon."

Mr. Chartrand said the ramp in front of Town Hall seems to work, he wouldn't want to remove that one.

Ms. Belanger said she likes the idea of timed spots, but businesses start to open at 10, not at noon.

Mr. Papakonstantis asked if the Board felt that it's worth looking into strategy 2, and they agreed. The Board preferred to defer Strategy 1 as recommended.

Mr. Sharples said Strategy 3 is to introduce paid parking. The utilization rates are very high on Water Street and the Municipal Lot, around 85%. That's the rate that experts say warrants paid parking. You price it to reduce utilization down to 85% or lower. They found that average stay lengths were longer because there's no enforcement, and some cars are staying 3.5 hours or more. They may not be patronizing a store but be residents or employees.

Ms. Belanger asked why enforcement is not one of the recommendations. Mr. Sharples said when you get paid parking, you get civilian enforcement, and

the revenue pays for that person. The Police have been clear that they don't want to enforce parking. Ms. Belanger asked how it's enforced, and Mr. Sharples said the person can give them a ticket. Mr. Dean said we'd have to come up with a whole enforcement program.

Mr. Chartrand said there are areas where usage is so high and for extended periods that we need paid parking there. He would also like to see parking for just a short time not be charged.

Ms. Belanger mentioned that the Police Department does enforce the winter parking ban.

Mr. Sharples said Strategy 4 is to expand permit parking. When you have paid parking, those people who aren't just there for a few minutes aren't going to park there anymore. They're going to go somewhere that's close but free. There's a lot of parking on Elliot and Elm Streets. Ms. Belanger said this should be coordinated with the Pleasant Street winter permit parking.

Mr. Chartrand said Phillips Exeter got approval for a large building with parking that's not being used because we're not regulating parking. He's in favor of bringing a consultant on to set up a permit program for these streets and areas.

Mr. Papakonstantis asked if there could be spaces for visitor parking. Mr. Sharples said he'd have to look into how that would work.

Mr. Sharples said Strategy 5 is Wayfinding and Signage. Staff is supportive of this but it's all part of what else we decide to do.

Mr. Sharples said Strategy 6 is parking ambassadors downtown. Staff recommended deferring this strategy until we decide what other strategies we go with. We questioned whether it would be viable given the size of Exeter. Mr. Chartrand said it would be tough in this labor market.

Mr. Sharples said Strategy 7 is improved signage and markings for bicycles. We were supportive of this from a public safety perspective but wanted more details. The Board were generally in support of pursuing this. Mr. Chartrand said we have to find a way to have some street in the downtown that doesn't have angled parking so bicyclists are not in danger of being hit when people are backing out. Mr. Chartrand said the buildings are set and the sidewalks are at minimum width now. Where do you get the space? That's why they thought of sharrows, so you are in the lane acting like a car. The problem is that experienced cyclists can keep up with traffic but families and kids can't. They did put a bike lane in where there is parallel parking.

Mr. Sharples said Strategy 8 is to establish a new truck route. Ms. Belanger said we have four DOT routes going through downtown. Mr. Sharples said it would be a process to work through. Staff thought this strategy should be deferred until we have a clearer picture of a problem, if any. Ms. Belanger said large trucks take up both lanes coming into town by Sea Dog. Mr. Sharples said it's not ideal to have them downtown, but is it worth exploring a new route?

Mr. Sharples said Strategy 10 is to adjust zoning for small-scale development. We were concerned that this could affect MUND developments. It's

up to the Planning Board to do Zoning amendments, so with the Board's approval he could bring it to them. The Board agreed.

Mr. Sharples said Strategy 11 is to revise the winter parking ban. Currently it's December 1 - March 15, or 4.5 months. There are various ways to revise it. We could call for a ban only during a snow emergency. If you're using a storm-by-storm approach, you have to put something like blue lights up to notify people. Manchester does bans on one side of the street. Staff is concerned about doing it right so if there's no need we wouldn't move forward. Mr. Chartrand said there's inertia on this. We've had a straight ban on public parking overnight during the winter. We need to look at a system that allows folks more leeway. It's not a crisis, but we should look at it over the next year or two. Mr. Papakonstantis said there was a Citizen's Petition that passed overwhelmingly to overturn the winter parking ban, but it was reestablished by the Police, Fire, and DPW. He wants to hear from the current Department heads about their concerns about safety. Ms. Belanger said she'd like to hear from the DPW on other options for winter parking. Mr. Sharples said he thinks they're getting ready to make those recommendations.

Mr. Sharples said Strategy 12 is to reconfigure the bandstand intersection. The bandstand would stay, but we would add green space to extend the public space in front of Town Hall. There would be a 4-way stop past the bandstand. There's already basically a 3-way stop. This would remove 8 of the 29 parallel spots that are there. Staff supported the concept but thought further investigation was warranted. It could be put into a future CIP. Mr. Papakonstantis said he likes the green space. Is the 4-way stop going to make that intersection safer? If so, you could sell the loss of 8 spaces. He would like to see more analysis on this. Mr. Chartrand said the voters will have to approve this. This concept would make downtown a gem. To create that public space adjacent to our most important public building would be a home run. There's no doubt it would make that intersection safer. Ms. Belanger said she loves the connection between Town Hall and the bandstand. Ms. Belanger asked if the private roadway opposite the intersection would stay open. Mr. Chartrand suggested it could be made a one-way road going in. It's very hazardous to pedestrians for a car to be poking up there.

Mr. Sharples said although we're saying green space, grass in this area would be hard to maintain, but there are a lot of options for a nice space downtown.

Mr. Chartrand said a lot of the other things we're considering will alleviate congestion, so they may make this seem more feasible. This would not be the thing to lead off with.

Mr. Sharples mentioned that a Park Mobile vendor emailed him and said that there are already 5,000 registered Park Mobile app users that reside in Exeter, using it somewhere else.

Mr. Sharples said Strategy 13 is multi-modal improvements. Each of the proposals would have to be analyzed on their own merits. Staff recommended

holding off on these until after other strategies are implemented, and should be put in on a trial basis. One proposal is to adjust Clifford and Franklin, adding pedestrian bump-outs. These are big changes and might be a longer-term goal. The Board agreed that this could wait.

Mr. Sharples said Strategy 14 is to reimagine Water Street's parking. Currently it's 60-degree angled parking. They recommend changing that to parallel parking. It would be a little less than half; there are 75 spaces now and there would be 46 spaces in this proposal. You could add some on the opposite side because you would have more width to the road. Staff was unsupportive of this because we were concerned about losing spaces and the safety issues and congestion caused by parallel parking. Mr. Chartrand said it's hard to imagine this working. If we vigorously push parking to permitted spots it might be possible to see how this would work, but we'd have to see improvement in the congestion along Water Street. This doesn't feel doable right now. Ms. Belanger said she would be concerned about a bike lane along the area with car doors being opened.

Mr. Sharples said we're going to hold off on Strategy 1, the shared parking supply. Strategy 2, we're going to look into it. Strategy 3, Paid parking and permit parking, we're going to look into it. We're going to start looking at wayfinding and signage. We'll defer the parking ambassadors. Improve markings and signage for bicycles is a yes, and we'll bundle that in with wayfinding. We'll further investigate but keep on hold the establishment of a truck route. Zoning will go to the Planning Board. We'll continue to explore a revised parking ban over the next year or two. The Board was supportive of the reconfiguration of the band-stand, but longer-term. We'll start looking at that from an engineering perspective. The multi-modal improvements would be a longer-term project, not an immediate project. Reimagining Water Street would be a longer-term examination. The Board agreed with this summary.

## 8. Regular Business

### a. Tax Abatements, Veterans Credits and Exemptions

- i. There were no abatements, credits, or exemptions at this time.

### b. Permits & Approvals

#### i. Rec Revolving Fund Request

Mr. Sharples presented on behalf of Mr. Bisson. Mr. Sharples said he [Mr. Sharples] has taken over as project manager for the 10 Hampton Road renovations. The Facility Advisory Committee suggested that based on his familiarity with construction and project management. We've been trying to get a contract together. The CDFA specifies that you must get at least 3 bids for any professional or trade contracts. We came to you to engage Hampton management Corp as the Design Builder, so they will get 3 quotes for everything but the design. They've done some work with their preferred firm already. This project needs to be done by August,

when the Federal Funding runs out. If we spend the design funds out of the Rec Revolving Funds, that would eliminate the need for 3 bids. We met with the CDFA and they were ok with that. We got quotes in the high \$40,000s for the design, so we're asking for a cost not to exceed \$60,000. The fund has a balance of \$126,000 and can absorb this expenditure.

Mr. Papakonstantis said he's glad Mr. Sharples is involved and he supports this funding strategy. Mr. Chartrand said he also supports Mr. Sharples being involved, because he's very good at this. Ms. Belanger said she thinks this is a great idea.

**MOTION:** Ms. Belanger moved to authorize Parks and Rec to use Recreation Revolving Funds for the necessary design work for 10 Hampton Road through HDC, not to exceed a price of \$60,000. Ms. Cowan seconded. The motion passed 4-0.

ii. Steven Cronin

DPW Director Steven Cronin, who was present remotely via Zoom, requested that the Board approve a contract with CMA Engineers for \$377,000 for School Street Area improvements. This would address aging and undersized sewer, water, and drainage infrastructure. CMA has been pre-qualified by the town as part of the Salem Street project. They secured us a CRF loan of \$4.8M with 35% principal forgiveness.

**MOTION:** Ms. Belanger moved to award the School Street Area Improvement project contract design to CMA Engineers in the amount of \$377,000 and further authorize the Town Manager or their designee to sign all associated contract paperwork. Ms. Cowan seconded. The motion passed 4-0.

iii. Flag Drop Box

Ms. Belanger said they answered her questions to her satisfaction. She'd like them to check in with the Town Manager's Office when they check the box every month. If it's not being utilized, EXTV could promote it. Mr. Papakonstantis said he'd like to see that either way.

c. Town Manager's Report

- i. Mr. Dean said we've updated the downtown mobile food vending license application. The RFP is in place to be released tomorrow. We put into the RFP that there would be no propane or the selling or serving of alcohol. If the vendor had a Health Inspection that yielded more than 2 critical items, that could be a disqualification.
- ii. The Police Station/Fire Substation Project had a Construction Manager RFQ put out. We're doing weekly check-ins with TGAS, the Architect of the project. There's been a discussion about governmental land uses and how it affects the wetlands on the site. We can use the existing Commercial Drive as a secure means of ingress and egress.
- iii. We had an issue with the filter media at the groundwater treatment plant.

We had to purchase additional green sand from a neighboring community.

- iv. The Epping Road widening phase 1 is nearing completion. Phase 2 would be in spring and summer 2025. There will be a warrant article forthcoming.
- v. We hired a new Firefighter, Kieran McCabe. We're up to full staffing in the Fire Department, but we have one injury that leaves us short.
- vi. We hired a new Police Officer, Aaron Hurlburt of Dover.
- vii. Household Hazardous Waste day is this Saturday, October 19.
- viii. Health Insurance rates came in at an 18% increase year over year. We're hoping to have an updated budget before the budget meeting this Friday.

d. Select Board Committee Reports

- i. Ms. Belanger attended the Arts and Culture Advisory Committee meeting. The chair dollies were purchased but they're too big. We were going to ask Greg to purchase the next set. We can't return them, we've had them for too long. The project for Town Hall was discussed. They wanted the proposed plans to be made public, but they're still being vetted. We shouldn't have started the meeting because we didn't have a quorum, so all of the votes will need to be redone. The Planning Board meeting was canceled. The sculpture from Joe Grey still needs a waiver from Parks and Rec.
- ii. Mr. Chartrand attended a Conservation Commission meeting. They heard an application for a lot on Portsmouth Ave, near the McDonalds and the Volvo dealership. There's a request for a large amount of fill. They asked for more time.
- iii. Ms. Cowan had no report. She said we have an election coming up November 5th and it's your civic duty to vote.
- iv. Mr. Papakonstantis said we had a BRC kickoff October 2. There was a Pairpoint Park Committee meeting. There was a lot of discussion about multiple options and some confusion about the sequencing. We appointed 11 talented and experienced folks that have the best interest at heart in putting together a gem of a park. There are some who are anxious to get something going while others want to be more deliberate and get buy-in from the community. There was input from Mr. Sharples that wasn't well-received by some. The goal of the next meeting is to have something to come back to the Select Board with and to reset.

e. Correspondence

- i. A flier from Parks and Rec on a Senior Resource Fair
- ii. A flier from DAR for an event at Winter Street Cemetery
- iii. A memo from the Sustainability Planner Kristin Murphy on the Raynes Barn improvement project.
- iv. A letter from the Chair of the Board at RiverWoods, Susan Desjardins,

letting the Board know about how they're notifying their residents about future plans.

- v. Several emails from David Kovar, which Mr. Dean has followed up on.

9. Review Board Calendar

- a. The next meetings are October 28, Tuesday November 12, November 25, December 9, and December 23.

10. Non-Public Session

**MOTION:** Ms. Belanger moved to enter into nonpublic session under RSA 91A:3II(a). Ms. Cowan seconded. In a roll call vote, the motion passed 4-0 and the meeting entered non-public session at 8:58 PM.

**MOTION:** Ms. Belanger moved to exit non-public session. Ms. Cowan seconded. The motion passed 4-0 with a roll call vote.

**MOTION:** Mr. Chartrand moved to seal the minutes until the matter is resolved. Ms. Cowan seconded. The motion passed 4-0.

11. Adjournment

**MOTION:** Ms. Belanger moved to adjourn the meeting and Mr. Chartrand seconded. The motion passed 4-0 and the meeting adjourned at 9:15 PM.

Respectfully Submitted,  
Joanna Bartell  
Recording Secretary

To: Niko Papakonstantis &lt;npapakonstantis@exeternh.gov&gt;, Nancy Belanger &lt;nbelanger@exeternh.gov&gt;

Hey Niko -

Just wanted to let you know that we voted to make Bruce Jones a permanent member of the committee. We now have 6 voting members and no alternates. I am now the chair and Tony is the vice-chair. We still need to determine a clerk.

Thanks

Scott

Statement of Interest/experience/background/qualification, etc. (*resume can be attached*).

Recently moved to Exeter after living in Kingston for 40 years; while there we were very active in the community and I would like to get involved serving Exeter, not only to serve the Town but to get to know more people. Previous community service includes 9 years on the School Board (3 1 yr terms as Chair), served on 3 building committees and other volunteer activities. I have a good understanding of RSA 91A and its requirements for a Committee such as this.

If this is re-appointment to a position, please list all training sessions you have attended relative to your appointed position.

I understand that: 1. this application will be presented to the Exeter Select Board only for the position specified above and not for subsequent vacancies on the same board; 2. The Town Manager and Select Board may nominate someone who has not filed a similar application; 3. this application will be available for public inspection.

After submitting this application for appointment to the Town Manager:

- The application will be reviewed and you will be scheduled for an interview with the Select Board
- Following the interview the Board will vote on your potential appointment at the next regular meeting
- If appointed, you will receive a letter from the Town Manager and will be required to complete paperwork with the Town Clerk prior to the start of your service on the committee or board.

I certify that I am 18 years of age or older:

Signature: Mark Furlong Date: 8/4/24

Statement of Interest/experience/background/qualification, etc. (resume can be attached).

Exemptions for elderly, veteran and disabled citizens  
are a important part of any towns program.  
As the economy changes these programs need to be  
evaluated to see if they need changes made.  
Changes must be evaluated not only on town level  
but also state level

If this is re-appointment to a position, please list all training sessions you have attended relative to your appointed position.

I understand that: 1. this application will be presented to the Exeter Select Board only for the position specified above and not for subsequent vacancies on the same board; 2. The Town Manager and Select Board may nominate someone who has not filed a similar application; 3. this application will be available for public inspection.

After submitting this application for appointment to the Town Manager:

- The application will be reviewed and you will be scheduled for an interview with the Select Board
- Following the interview the Board will vote on your potential appointment at the next regular meeting
- If appointed, you will receive a letter from the Town Manager and will be required to complete paperwork with the Town Clerk prior to the start of your service on the committee or board.

I certify that I am 18 years of age or older:

Statement of Interest/experience/background/qualification, etc. (*resume can be attached*).

I have lived in a resident owned MH cooperative in Exeter for nearly 18 years. As a community leader, I have worked alongside many neighbors as they are seeking exemptions and solutions to support living on reduced or fixed incomes. I believe I have keen insight to the challenges that many Exeter low income residents face when the income they receive is reduced and living expenses increase. I believe there is great opportunity to explore ways that senior, veterans, those with disabilities and even our working class residents can stay living in their homes without fear of displacement, limiting their own needs, and added stress. I believe my service would be a welcome presence to represent the many manufactured housing owners in town.  
 If this is re-appointment to a position, please list all training sessions you have attended relative to your appointed position.

I understand that: 1. this application will be presented to the Exeter Select Board only for the position specified above and not for subsequent vacancies on the same board; 2. ## MEMO

DATE: October 24, 2024  
TO: Russell Dean, Town Manager  
FROM: Steve Dalton, Water Sewer Superintendent  
RE: Lead Service Line Inventory Project Update

---

The Town was a recipient of a NHDES Lead Service Line, Sampling Plan and Replacement Plan Grant for the amount of \$50,000.

The new Lead Copper Rule Revision (LCRR) under the U.S. Environmental Protection Agency (USEPA) required community water systems to develop and submit to NHDES, an inventory of service lines within the water distribution system by October 16, 2024. The purpose of the inventory is to identify the location, material, and other pertinent information of service lines and ultimately create a replacement plan for all lead and galvanized service lines downstream of lead pipe, also known as “galvanized requiring replacement,” within public water distribution systems nationwide.

Weston and Sampson was contracted to perform this inventory using several data sources to compile the inventory. There are 2,173 out of 3,280 services that are currently designated as unknown service material. There were no services identified as lead, however there are five services that were identified as galvanized requiring replacement (GRR).

Municipalities are required to mail notifications to all services designated as unknown or GRR by November 16, 2024 and again annually until the service material has been identified as non-lead.

The complete inventory list is available to the public upon request in electronic or printed format.

The pH of the treated water from both the Surface Water Plant and Ground Water Plant is monitored and regulated so it is not corrosive to potential lead or galvanized services. Public water systems such as Exeter are regulated to sample for lead in various sections of the water distribution system. This inventory will guide the State required sampling locations to be representative of the areas with the most unknown and potential lead service materials.

Weston and Sampson Service Line Inventory Development Summary

October 11, 2024

Steve Dalton  
Water & Sewer Superintendent  
Public Works Department  
13 Newfields Road  
Exeter, NH 03833

Re: **Exeter Water Department Service Line Inventory Project**  
**Public Water System (PWS) ID# 0801010**

Dear Mr. Dalton:

Weston & Sampson is pleased to provide the town of Exeter Water Department (the town) with this report summarizing the activities completed to develop the initial Lead Service Line Inventory (LSLI) for the town's **3,280** service lines that were reviewed under this effort. The inventory was created as required by the United States Environmental Protection Agency's (US EPA) Lead and Copper Rules Revisions (LCRR) regulation. The work was funded by the Lead Service Line grant program through the New Hampshire Department of Environmental Services (NHDES).

Work performed under this project included the development of a system-wide water service inventory with system-owned and customer-owned water service line characteristics in compliance with the LCRR. The inventory was completed in a digital spreadsheet developed by NHDES, provided separately in Microsoft Excel format. In this report are descriptions of the NHDES Service Line Inventory spreadsheet, classifications of service lines, data and validation methods used, assumptions made, summary of system-wide water service line characteristics, and next steps to meet the additional requirements of the LCRR.

### Project Purpose

On January 15, 2021, the US EPA released the LCRR to better protect communities from exposure to lead in drinking water. The LCRR requires water systems to develop and maintain an inventory of water service lines with a compliance date of October 16, 2024. This project, as summarized herein, aims to satisfy these new requirements by providing a detailed inventory of water service lines served by the Exeter Water Department.

### LCRR Background

The LCRR requires that the inventory include material designation for all service lines for both the utility or system-owned portion (main to curb-stop) and private or customer-owned portion (curb-stop to water meter). In addition, the LCRR requires that the inventory include all service lines served by the water system regardless of ownership.

The LCRR also requires that the inventory include all service lines for three primary use categories: domestic, fire suppression, and irrigation. Distribution lines for items such as hydrant, blow-off, and bleeder valves are not required to be included in the inventory per LCRR and were not assessed during this effort.

### Water System Description

The Exeter Water Department currently has 3,280 service lines located in the towns of Exeter and Stratham for domestic, irrigation, and fire suppression. The town of Exeter purchased the water system in 1950, known as Exeter Water Works. The water system originated in 1886. Until 1929, galvanized wrought iron pipe was used for services. Since 1929, copper pipe has been used for services.

## LSLI Template Explanation

The LSLI template used for this project was provided by NHDES for use by water systems across the State of New Hampshire. This template is based off the EPA template and has data fields that are required (per the LCRR) and other fields that are optional. The focus for this project was to address the required fields.

Required fields, per the LCRR, include the following:

- Locational Identifier – House No., Street Name, and City or Town.
- System-Owned Portion Service Line Material Classification.
- Customer-Owned Portion Service Line Material Classification.
- Entire Service Line Material Classification (auto-populated based on above classifications).
- Assigned LCRR Sample Tier (for future Lead and Copper sampling).

## LCRR Service Line Classifications

All water service lines in the initial LSLI were designated with one classification to represent the entire service, as required by the LCRR. Each service resulted in either a classification of lead, galvanized requiring replacement (GRR), non-lead, or lead status unknown. The table below provides the definition, and an example of each of the four classifications.

Classification	Definition	Example
Lead	Any portion of the service is known to be made of lead.	A water service line for which the system-owned portion material is copper, and the customer-owned portion material is lead would result in a lead classification for the entire service line.
GRR	The service line is not made of lead, but a portion is galvanized, and the system is unable to demonstrate that the galvanized line was never downstream of a lead service line.	A water service line for which the system-owned portion material is HDPE, however it cannot be proven that it was not lead in the past, and the customer-owned portion material is galvanized would result in a GRR classification for the entire service line.
Non-lead	All portions of the service line are known NOT to be lead or GRR through an evidence-based record, method, or technique.	A water service line for which the system-owned portion material is copper, and the customer-owned portion material is also copper would result in a non-lead classification for the entire service line.
Lead status unknown	The service line material is not known to be lead or GRR. For the entire service line or a portion of it (in cases of split ownership), there is not enough evidence to support material classification.	A water service line for which the system-owned portion material is copper, and the customer-owned portion material is unknown and cannot be proven to not contain lead or galvanized material would result in a lead status unknown classification for the entire service line.

## Data Collection and Inventory Sources

Weston & Sampson worked with the town to compile all available service material information for the LSLI. Several information sources and methodologies were utilized for the development of the town's initial LSLI. A thorough records review was conducted to determine the system-owned material information. The sources of information utilized, and actions performed during the inventory development are listed below:

- Reviewed assessor database for the town of Exeter, including building year of construction.
- Reviewed the town's existing GIS database.

- Assisted the town with developing a GIS attribute template (which includes service address, billing account number, system-owned service line material, customer-owned service line material, service line diameter, and year of install).
- Reviewed all available records for water service lines within the town including:
  - o Inspection records from meter change-out and meter repairs.
  - o Water main construction plans and as-built drawings.
  - o Water service tie-cards and tap-cards.
- Reviewed the town's regulations, codes, and specifications.
- Reviewed historical information for Exeter Water Works.
- Assembled LSLI inventory spreadsheet using NHDES template.
- Assisted the town with updating Lead and Copper tiered sampling designations, per the LCRR.

### Inventory Assumptions

After review of the existing records and information as described above, some system-owned and customer-owned water service characteristics remained unknown preventing the assignment of material designation. As a result, alternative methods were used to determine service line material where possible. A list of these assumptions is available below:

- Buildings newly constructed during or after the year 1989 were designated as non-lead for the customer-owned portion of the service line due to the national lead pipe ban. This assumption is based upon the *US EPA Guidance for Developing and Maintaining a Service Line Inventory Appendix D: Summary of Lead Ban Provisions by State*.
- All water services lines identified with a pipe diameter greater than 2-inches were assumed to be non-lead per the *EPA Guidance for Developing and Maintaining a Service Line Inventory* (Aug 2022).

### Summary of Water System Service Characteristics

The town has **3,280** services that were reviewed under this effort. Based on the review that was conducted, zero service lines were identified as lead, 5 service line was identified as GRR, and 2,173 were designated as lead status unknown.

Water Services by Material						
	Lead	GRR	Lead Status Unknown		Non-Lead	
			System-Side	Customer-Side	System-Side	Customer-Side
	0	5	685	1,488	2,595	1,787
<b>Total</b>	<b>0</b>	<b>5</b>	<b>2,173</b>		<b>4,382</b>	

### Unknown Service Lines

To meet the requirements of the LCRR, the 2,173 services that are designated as 'unknown' in the table above must be identified within 10 years of submission of the initial inventory, or by 2034. To meet the ten-year deadline, approximately 218 services (on average) should be identified per year by the town.

The 2,173 services designated as unknown contain 685 services on the system-owned side. Field investigations such as potholing to identify the service material for these unknown services may be conducted by the town or a subcontractor. To meet the 2034 deadline, 69 potholes should be performed (on average) per year. Water main replacement projects are also an opportunity to identify system-side unknowns. Water main replacement projects planned for the next five years should incorporate inspection of system-side service line material, where applicable, to reduce the overall number of potholes required.

The 2,173 services designated as unknown contain 1,488 services on the customer-owned side. Field investigations such as targeted inspections focused on unknown services or inspections performed during meter changeout/repair may be conducted by the town water department staff or a subcontractor. Residents may also self-report to identify the material of the customer-owned side. To meet the 2034 deadline, 149 inspections should be performed (on average) per year. Based on the current meter replacement rate of 200-300 per year, this effort may be completed in 5 to 7 years.

### Service Lines Potentially Requiring Replacement

Five service lines were identified as being galvanized iron pipe on the customer-owned side at:

- 10 Arbor St,
- 19 Charter St,
- 7 Cottage St,
- 22 Green St,
- 9 Kossuth St.

The galvanized service lines were identified from initial records review (tie-card) and water department staff inspections. To meet the requirements of the anticipated Lead Copper Rule Improvements (LCRI), any galvanized service lines which cannot be proven that a lead line or connector was never upstream will require a replacement service line to be installed by 2037. A Service Line Replacement Plan will be developed separately from this initial service line inventory project, for any service lines identified as lead or GRR.

### Conclusion

The US EPA developed the LCRR to better protect communities from exposure to lead in drinking water. It requires water systems to develop and maintain an inventory of water service line materials with a compliance date of October 16, 2024. Under this effort, all domestic, fire, and irrigation service lines in the town were included in the inventory and all received a classification of either lead, GRR, non-lead, or lead status unknown. The service line material designations were identified utilizing several information sources and methods, including town assessor info, the town's GIS database, tie cards & tap cards, construction and as-builts plans and inspections from meter changeout/repairs.

### Next Steps

To complete the LSLI requirements set forth by the LCRR, the Exeter Water Department must perform the following:

- Submit the initial inventory to the **New Hampshire Department of Environmental Services** by **October 16, 2024**.
- Within thirty (30) days of the inventory submission deadline of October 16, 2024, the town must provide **notification to all persons served by the water system who have a water service classified as lead, GRR, or lead status unknown** to include, at a minimum, a statement about service line material, lead health effects, steps to minimize lead exposure in drinking water, opportunities to have the water tested for lead, and opportunities to verify material of the service line. The town must repeat the notification on an annual basis until the entire service line is no longer lead, GRR, or lead status unknown. For new customers with a service line designated as lead, GRR, or lead status unknown, the town shall also provide the notice at the time of service initiation.
- The notification must be delivered in a manner calculated to reach all persons served by the water system. This includes tenants of apartment buildings who are not billed separately. Landlords and property manager of multi-family structures are required to post at each building in a conspicuous location.
- **Provide copies of the notification(s) to NHDES along with Service Line Material Notification Certification Form by Nov 15, 2024.**
- Submit public notification certification form to NHDES by **July 1, 2025**.

- Update lead and copper sampling sites by **Jan 31, 2025**, which must incorporate by newly assigned sampling Tiers from the LSLI.
- **Make the LSLI publicly available** and include a location identifier for all service lines designated as lead, GRR, or lead status unknown. Methods could include but are not limited to hard copies of the inventory, publicly-available GIS map, posting the inventory online, etc.
- The town must include information on how to access the LSLI in the Consumer Confidence Report.
- If, during normal operations, LSLs or GRR service lines are found after the initial inventory is submitted, the town must notify the customer and NHDES within thirty (30) days.

Following the submission of the inventory Weston & Sampson strongly encourages the town review the requirements of the new Lead and Copper Rule Improvements (LCRI), which was released on October 8, 2024.

Sincerely,

WESTON & SAMPSON ENGINEERS, INC.

Jeffrey Provost, P.E.  
Associate/Team Leader

RE: Pavement Management Program Update

---

Pavement Management is the practice of planning for pavement repairs and maintenance with the goal of maximizing the value and life of a pavement network.

The Public Works Department periodically assesses the condition of the Town-maintained road network for the purposes of updating its Pavement Management Program. The data gathered from these updates helps the Department to develop condition prediction curves, prioritize road repairs, recommend repair strategies, and prepare budget scenarios.

The Department recently completed its latest round of condition assessments, which has provided new insight into the state of our roads. The Department has requested level funding the Road Paving budget at \$700,000 for 2025; however, we welcome the opportunity to present the Select Board with this current information to plan for future funding requests.

**Date:** October 23, 2024  
**To:** Russell Dean, Town Manager  
**From:** Dave Sharples, Town Planner and Steve Cronin, Public Works Director  
**Re:** Complete Streets Study

We are writing this memorandum as a result of our discussion this afternoon. We would like to appear before the Select Board at their October 28, 2024 meeting. We intend to request that the Select Board authorize the use of American Rescue Plan Act of 2021 (ARPA) funding for a complete streets study.

As you know, the complete streets study has been in the Capital Improvement Program (CIP) for several years and has been moving toward the funding year. It was in last year's CIP for funding in 2025. Mr. Sharples discussed this item with the Planning Board and they supported funding the study in 2025. Mr. Sharples initially proposed it in his FY25 budget request but, due to budgetary constraints, it was removed.

Mr. Sharples met with the General Government Subcommittee on October 7, 2024 to discuss his budget proposal. All three members of the subcommittee supported the complete streets study and Mr. Sharples explained to them why it was removed and that we still intended to move forward with the study when the budget allowed. Mr. Sharples then met with the entire Budget Recommendations Committee (BRC) on October 18, 2024 and several members raised the need for the study again.

This afternoon, we met with you, Niko Papakonstantis, Melissa Roy, and Corey Stevens to discuss complete streets and the discussions at the BRC meeting. At this meeting, we collectively agreed to request American Rescue Plan Act of 2021 (ARPA) funding to complete the study. ARPA funds are only available until the end of this year and need to be obligated by December 31, 2024. While we still have time to meet this deadline, we would need to make the request to Select Board on Monday to give us as much time as we can to solicit bids and get under contract by the New Year.

We have attached the CIP sheet for the study. We will be in attendance Monday night to answer any questions the Select Board may have. In the event the Select Board decides to fund the study with ARPA funds, a motion is provided below for their convenience.

**Suggested Motion:** I move to authorize the use of up to \$25,000 of the American Rescue Plan Act of 2021 (ARPA) funding to develop a Complete Streets Study as outlined in the 2018 Town of Exeter Master Plan and the Town of Exeter 2024-2029 Capital Improvement Program.

2024 - 2029 CIP Project Request Form

Date Submitted: 6/17/2023

Year Funding is Requested: 2025

Project Title: Complete Streets Study

Project Type: Planning/Study

Project Cost: \$25,000

Department: Planning

Contact Name: Dave Sharples

Project Ranking: \_\_\_\_\_ of \_\_\_\_\_

Useful Life (Years): TBD

Master Plan (Y/N): Yes

Growth Related (Y/N): Yes

Service Related (Y/N): No

Externally Mandated (Y/N): No

## Project Description

This project would provide funding for a consultant to conduct an evaluation of Town and State roads in Exeter that could qualify to fall under a complete streets program. The concept of complete streets takes into account all manner in which a road/right of way can be used: pedestrians, bicyclists, automobiles, and other transportation needs (ie buses or other modes). A complete street may include sidewalks, bike lanes, special bus lanes, etc.. Currently the Town has no standing policy or a basis to adopt a policy regarding complete streets in Exeter. This study would review the potential to apply complete streets concepts in key areas of the Town that are known to be well traveled by bicyclists, important pedestrian areas, etc.. A strategic plan would then be devised around these concepts to give the Select Board, Planning Board, and Public Works Department guidance when large scale projects are being designed, such as the Portsmouth Avenue reconstruction. See [www.completestreets.org](http://www.completestreets.org) for a review by the National Complete Streets Coalition, Washington DC.

## **Permits & Approvals**

**STATE OF NEW HAMPSHIRE**

To the inhabitants of the Town/City (Ward) of Exeter in the  
County of Rockingham, New Hampshire.

You are hereby notified to meet at Talbot Gym 30 Linden St.  
(name and location of polling place)  
on Tuesday, the fifth day of November, 2024. The polls will be open between the hours of  
7 a.m. and 8 p.m. to act upon the following subjects:

**To bring in your votes for President and Vice-President, Governor, United States Representative, Executive Councilor, State Senator, State Representatives, and County Officers.**  
**To bring in your votes for Constitutional Amendment Questions**

Given under our hands and seal, this \_\_\_\_\_ day of October, in the year of Our Lord two thousand and twenty-four.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_ Selectmen of Exeter

October \_\_\_\_\_, 2024

The individual(s) who physically post the warrant should document the posting on a copy of the warrant and file that report with details of the posting with the town clerk. The clerk should keep this report with the records of the election. The warrant and posting report is a public document.

Use if all select Board members participate in posting the warrant:

We hereby certify that we gave notice to the inhabitants of the town/city ward within named, to meet at the time and place and for the purpose within mentioned, by posting an attested copy of the above Warrant at the polling place and at the office of the Town or City Clerk or City Hall on the \_\_\_\_\_ day of October, 2024.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_ Selectmen of \_\_\_\_\_

Use if designee of the select Board posts the warrant:

I hereby certify that notice to the inhabitants of the town/city ward within named to meet at the time and place and for the purpose within mentioned, by posting an attested copy of the above Warrant at the polling place and at the office of the Town or City Clerk or City Hall on the \_\_\_\_\_ day of October, 2024.

## Special Event Application

*The Town of Exeter requires licensing for all Special Events where the Select Board is the licensing authority. Return all Special Event applications to Exeter Parks and Recreation, at 32 Court Street, Exeter NH.*

*For information or questions concerning the application call 603-773-6151 or email [mroy@exeternh.gov](mailto:mroy@exeternh.gov). Special Event License (Reference RSA 286 1-5, Town Ordinance Chapter 807)*

**TYPE OF EVENT:** *Special Event*

**LOCATION:** *Exeter Town Hall*

Organization Name: *TEAM - Town Exeter Arts Music / Arts Industry Alliance*

Organization Address: *111R Water Street, Exeter, NH*

Event Representative Name: *Scott Ruffner*

Event Representative Title: *Director* Phone # *603-512-8396*

Day of Contact Name: *Same* Day of Contact Phone # *Same*

Event Representative Email: [TownExeterArtsMusic@gmail.com](mailto:TownExeterArtsMusic@gmail.com)

Are you an Exeter, Non-Profit Group: *Yes*

### **EVENT DETAILS**

Dates of Event: *Tuesday, December 10th, 2024*

Start Time: *5pm* End Time: *9pm*

Name of Event: *Exeter Area Scholarship Fundraiser*

Number of Anticipated Attendees (Including Volunteers and Staff):

~~250-300~~

Describe the Proposed Event: This is an annual fundraiser event for the Exeter Area Scholarship Fund that showcases food from our local chefs, beer from local breweries, and art from local artists.

Blocking Off Road(s): NO

**WILL YOUR EVENT INVOLVE ANY OF THE FOLLOWING?**

Food/Beverage/Concessions/Vendors/sales (inspection by Health Officer) Yes

Alcoholic Beverages Served

Yes, we will once again be featuring local beer from Sawbelly, Exeter Brew Company and Czar's.

State Liquor Permit Received Yes No Date Rcvd: \_\_\_\_\_

Town Liquor Permit Approved Yes No Date Rcvd: \_\_\_\_\_

Electronic sound amplification equipment, speakers, public address system (must follow noise ordinance) Yes

Propane/Charcoal BBQ grills (inspection by Health Officer) No

Electrical set up/ electrical cords run to the site (inspection needed by Electric Inspector) No

Fire pits, bonfires, kindle fire, campfire and other outdoor burning (must have permit from Fire Department) No

Tents/canopies If so, list quantity and size No

Animals at the event. If so, describe No

Motorized Vehicles. If so, describe No

**1. Site Plan:** Please attach a drawing of the event layout, including parking, facilities, vendor setup etc. On File

**2. Security/Crowd Control Plan:** Describe how you plan to manage event goers while not surpassing the maximum seating capacity of indoor events or

how you will secure, control, and assure compliance with laws and licensing conditions in the case of an outdoor event.

We will be selling tickets ahead of time and will restrict the number of attendees to ensure we meet capacity requirements.

**3. Traffic Control/ Parking Plan:** The estimated number of vehicles, provisions for parking, number of police officers or employees necessary to control traffic, type and location of any signs, and any other accommodations or procedures planned to handle attendees and their vehicles.

Our event pages and website contain maps to public parking lots and on street parking areas.

**4. Fire Emergency Plan:** The estimated number of occupants of all indoor events to assure compliance with the laws and permit rules and conditions required by the NH State Fire Code and its adopted references for places of assembly. N/A

**5. Ambulance/ Medical Service Plan:** Detail the on-site emergency medical services and transportation plan. Call 911

**6. Ticket Distribution Plan:** Outline the distribution of tickets prior to the event and/or at the time and place of the event, including provision for a limitation on ticket sales to maintain required occupancy levels and provision for the refund of ticket costs in the event of cancellation of the event. We use the Eventbrite website which easily allows us to monitor ticket numbers.

**7. Sanitary Facilities Plan:** A plan appropriate for the number of attendees, which will include information relative to portable toilet facilities, trash containers, and a provision that the property and surrounding areas and roadways shall be cleared of all debris within 12 hours following the event.

Guests will have access to the Town Hall public bathroom as well as the restroom in the 2nd Floor Art Gallery. We will utilize the trash cans in town hall, and any trash created by the chefs will be taken back to their dumpsters.

**8. Food Service Plan:** A food service plan, which may require review and acceptance by the Exeter Health Officer or a vendor permit from the Fire Department. Please list what types of food will be served and where it will be served within the facility.

We work closely with the Town Health Officer on food service permits, rules and regulations. Food will be from local restaurants Otis, Sawbelly, Vino e

Vivo, Cornicello, and Ambrose. Each chef will be serving small appetizer size "finger foods".

**9. Special Duty Service Fees:** The application fee does not include the cost of Fire or Police protection/detail, or any other extra Town expense required to protect the health and safety of the public which can reasonably be attributed to the event. All such costs associated with the use of active and stand-by emergency and other services provided by the Town of Exeter, or by other towns' emergency services, shall be borne by the applicant, promoter or sponsor.

After the event, billing for the Special Duty Services will be based on actual hours incurred by Town personnel. The total will be invoiced. A history of non-payment or late payment of any application fee and or Special Duty Services is grounds to deny your request for future event permits. **N/A**

**10. Liability Insurance Required:** Certificate of Insurance and endorsement/provisions to be submitted with completed application. Required Amounts: General Liability/Bodily Injury/Property Damage: \$1,000,000 per occurrence, \$2,000,000 aggregate; the Town of Exeter must be listed as additionally insured. **On file with the town offices**

**11. A performance bond** for events over 5,000 participants per day and or other security acceptable to the Town may be required in an amount equal to the amount estimated for Special Duty Services Fees as described above. **N/A**

### Special Event Application

By signing below, I confirm that all information provided herein and in all attachments as true and accurate, acknowledge that this application will not be reviewed by the Recreation Department until considered complete by Town review staff, and state that all liability for this event is assumed and accepted by the applicant.

Print Name: Scott Ruffner

Organization: TEAM

Applicant Signature: *Scott Ruffner*

Date: August 15th, 2024

I also confirm that I am responsible for all costs incurred for this event including all special duty police, fire and health/safety services. All services must be paid in full upon receipt of the invoice. If not paid in full, the Town will charge 2% interest per month.

The Town may request/sue for legal expenses if the Town has to go to collections for unpaid amounts. I am responsible for all fees, which may include interest, attorney and court fees.

The Town reserves its rights to pursue all available legal remedies for damage to Town property or violation of any laws, rules or conditions applicable to use of Town property. In addition, such conduct may result in revocation of permission and/or denial of future requests for permission to use Town property.

It is understood that this is a temporary permit in which can be revoked, eliminated or extended due to the fluidity of COVID-19 and/or non-compliance.

STATE OF NEW HAMPSHIRE

ROCKINGHAM COUNTY

## WARRANT OF COUNTY TREASURER

To the Select Board in the Town of Exeter in said County:

You are hereby required to assess upon the polls and property in said City/Town liable to taxation, **Two Million One Hundred Thirty One Thousand Eighty Dollars and No Cents (\$2,131,080.00)** being the just proportion of the county tax due from said town as granted by the last County Convention and to collect and pay the same to me on or before **Tuesday, the 17th day of December next**, for the use of the County.

YOU ARE HEREBY NOTIFIED THAT FAILURE TO COLLECT AND PAY SAID TAX BY THE DATE INDICATED WILL RESULT IN THE ASSESSMENT OF A PENALTY AS DESCRIBED IN THE NEW HAMPSHIRE STATUTES, RSA 29:11.

You are also required to return to the TREASURER of said County for the time being, the names and/or name of the Collectors or Collector whom you shall direct to collect this sum or any part thereof.

HEREOF FAIL NOT, AS YOU WILL ANSWER YOUR NEGLIGENCE UNDER THE PENALTY PRESCRIBED BY LAW.

GIVEN UNDER MY HAND, THIS 17<sup>th</sup> DAY OF OCTOBER, 2024.

I was under the impression once that only the Commissioner of Transportation could make a 20 mph speed limit after a review, but I'm not fluent in that particular RSA.

**From NH DOT: How can I request a speed limit to be changed?**

Posted speed limits are established and changed in accordance with State and Federal law. For example, statutory speed limits for 'business or urban residence districts' and 'rural residence districts' are set by RSA 265:60 at 30mph and 35mph, respectively. Speed zones other than the statutory speed limits shall only be established on the basis of an engineering study that has been performed in accordance with traffic engineering practices. Based on past requests engineering studies typically justify raising speed limits, therefore such requests should be coordinated with the City or Town to assure there is community support before reaching out to the Bureau of Traffic with a formal request to initiate the study.

**Exeter Meadows Homeowners Association (EMHA)  
Annual Meeting of the Association on October 07, 2024**

**Petition:**

Submitted by of the Homeowners of EMHA to lower our neighborhood speed limit from 30 MPH to 20 MPH

There are forty-two homes in our neighborhood. a quorum was represented at our annual meeting on October 7, 2024. It was overwhelmingly voted by a vote 31 out of 31 represented at the annual meeting.

The adjacent road to our neighborhood, Ashbrook Road, is a striped through-street with a speed limit of only 25 MPH.

We, EMHA, wish to petition the Exeter Select Board to be put on the EXETER Select Board's agenda to establish a 20 MPH speed limit in our association on Meadowood Drive and Twin Pond Circle.

In addition to the Homeowner Vote; all five Board of Directors were present. The five Board of Directors voted in the affirmative to submit this petition to the Exeter Select Board.

**From:** Daniel Tinkham <Daniel.Tinkham@gza.com>**Sent:** Tuesday, October 22, 2024 1:30 PM**To:** Koff, Andrew (Andrew.Koff@des.nh.gov) <Andrew.Koff@des.nh.gov>; DES: Large GW <largegw@des.nh.gov>; Roy, Stephen J. <STEPHEN.J.ROY@des.nh.gov>**Cc:** kensington@kensingtontown.com <kensington@kensingtontown.com>; James Emery <James.Emery@gza.com>; Thomas Page <tpage@underwoodengineers.com>; Stephen Cronin <scronin@exeternh.gov>; Steve Dalton <sdalton@exeternh.gov>**Subject:** Proposed Monitoring Locations for the Drinkwater Road Production Well Pumping Test

Andrew/Steve:

I am tentatively scheduling the five-day pumping test on the Drinkwater Production Well in Exeter, New Hampshire, for Wednesday, November 13<sup>th</sup>. The Well is scheduled to be installed next week.

In preparation for the long-term pumping test, letters requesting access to monitor private domestic wells were sent out to 54 different property owners in Exeter and Kensington. Permission to monitor was granted by 27 property owners (see attached figure and table). Of those, two wells were either inaccessible or the construction did not allow for access. Fourteen of the remaining wells have been selected as proposed monitoring locations, as listed on the attached table and shown on the attached figure. The fourteen selected wells represent a good distribution of wells throughout the area surveyed in Kensington. Only one of the wells in Exeter will be monitored, despite the fact that we sent a second letter requesting permission for monitoring to the closest properties in Exeter.

Please note that representatives of both the Town of Exeter and Kensington are copied to this email, so all parties are aware of the monitoring program.

With your approval of the proposed domestic well monitoring locations, we anticipate installing automated water level recorders in the fourteen wells during the weeks of 10/28/24 or 11/4/24.

Please contact me if you have any questions or concerns.

Thank you.

Then get busy and find out how to do it.”  
~ Theodore Roosevelt**

The Town of Exeter actively seeks residents that are interested in serving on the many Town Boards, Committees and Commissions.

Residents interested in serving are asked to complete a volunteer application, available on the Town’s website: [exeternh.gov](http://exeternh.gov) or at the Town Manager’s Office, 10 Front Street, 2<sup>nd</sup> floor.

Resident volunteers may serve on 2 Select Board appointed committees and may serve on 1 regulatory land use board, as allowed by law. Land Use Boards include Heritage Commission, Historic District Commission, Planning Board and Zoning Board of Adjustment.

Some Boards, Committees and Commissions have terms, while others serve at the pleasure of the Select Board. Those interested are encouraged to contact the Town Manager’s Office for more information.

Board, Committee & Commission vacancies are posted on the Town website and advertised on Channel 22.

Questions regarding the appointment process or vacancies may be directed to the Town Manager’s Office at (603) 773-6102 or [pmcelroy@exeternh.gov](mailto:pmcelroy@exeternh.gov)

## BOARDS

The **Planning Board** encourages & directs appropriate land use in the Town. The Board uses the Exeter Master Plan as a guide in making decisions as it serves as a blueprint for growth and development. The Board consists of 6 voting members, 5 alternates & a Select Board Rep. The Planning Board meets 2<sup>nd</sup> & 4<sup>th</sup> Thursdays of the month at 7 pm.

The **Recreation Advisory Board** promotes a vibrant, sustainable Recreation Department by providing ongoing support & recommendations to the Parks & Recreation Director, responding to the needs of the community, promotion, collaboration & fostering a culture of service to all community members both youth and adults of all ages.

The **Zoning Board of Adjustment** is a quasi-judicial body which hears and decides 4 types of zoning adjustment application; variances, special exceptions, appeals from administrative decisions & equitable waivers of dimensional requirements. The ZBA is a 5 member board with 5 alternates and meets on the 3<sup>rd</sup> Tuesday of the month.

## COMMITTEES

The **Budget Recommendations Committee**, Exeter's oldest committee, was originally appointed at Town Meeting in 1857, work collaboratively with department heads each fall to present a formal recommendation to the Select Board on the Town's annual budget. The majority of the committee's work is done in October & November.

The **Communications Advisory Committee** researches municipal information and management technologies, evaluates & strengthens communications with the public, organizes forums to discuss important issues and works with EXTV regarding program interfacing with citizens.

The **Energy Committee** recommends to the Select Board methods to reduce Town energy consumption, reviews the recycling program, solar & alternative energies, evaluates legislation & IECC codes, researches & updates the Town on educational opportunities, tax incentives, grants, etc. Meetings are held the 2<sup>nd</sup> Wednesday of the month.

The **Facilities Advisory Committee** assesses & analyzes municipality owned facilities in order to prioritize physical plant needs & budgets as described in the Town Master Plan, Facilities Plan & other relevant studies & reports. There are 5 voting members, 2 alternates & 1 Select Board Representative.

The **Housing Advisory Committee** reviews Exeter housing issues & offers recommendations to the Select Board & Planning Board on various matters related to housing. The HAC has 2 citizens-at-large representatives & meets monthly on the 2<sup>nd</sup> Friday.

The **Human Services Funding Committee** recommends to the Budget Recommendations Committee a list of agencies, with funding amounts, to be included in the annual Town budget. The committee engages with agencies to understand their work, how Exeter residents are supported, & how grant funds are used.

The **Pairpoint Park Stakeholders Advisory Committee** formulate recommendations for the Select Board in transforming property at 23 Water Street from an abandoned lot to a downtown community park. There are 9 voting members, 3 alternates, and reps from the Recreation Advisory Board, Historic District Commission, Heritage Commission & Select Board.

The **River Advisory Committee** advises the Select Board related to the management of the Exeter & Squamscott Rivers, tributaries & watershed within the Town's boundaries, including flood control, public & private water supplies, land use, environmental habitat, recreation, public safety & water quality. There are 11 members (5 citizens & 6 interested stakeholders).

The **Sustainability Advisory Committee** guides & advises the Select Board, regarding developing sustainable policies & practices, while promoting a healthy environment, strong community connections & economic vitality.

The **Tax Exemption & Credit Advisory Committee** researches & reviews tax exemption & credit programs currently available, as well as those that have not yet been adopted to make recommendations to the Select Board for consideration. There are 5 members, including 1 Select Board member.

The **Water & Sewer Advisory Committee**, in collaboration with the Public Works Dept advises the Select Board regarding abatement applications, water & sewer ordinances, and conduct public hearings on water & sewer rates. The 3 voting members & 2 Select Board Reps meet monthly on the 2<sup>nd</sup> Wednesday.

## COMMISSIONS

The **Arts & Culture Advisory Commission** is committed to supporting, encouraging & publicly recognizing Exeter's vibrant arts community. Promotion & integration of arts & culture improves physical, social, economic & educational aspects within our community. There are 7 voting members, 2 alternates & a Select Board Rep.

The **Conservation Commission** assists in protecting Exeter's natural resources by monitoring & managing conservation lands, serves as an advisory board to the NH State Wetlands Bureau & provides recommendations to the Planning Board & ZBA on conditional use permits. The 7 voting members & 5 alternates meet on the 2<sup>nd</sup> Tuesday of the month.

The **Heritage Commission**, formed in 2006, offers a valuable means for Exeter to manage, recognize & protect historical & cultural resources. The commission advises & assists other boards & commissions, conducts inventories, educates on historic preservation, provides historical resource information & is a resource for revitalization efforts. The 5 voting members & 2 alternates meet monthly on the 3<sup>rd</sup> Wednesday.

The **Historic District Commission**, established in 1970, consists of 7 commissioners & 4 alternates who monitor & preserve the integrity & beauty of Exeter's Historic Districts. The HDC serves to safeguard the Town's architectural heritage & promote Historic District usage for education, pleasure & community welfare. Meetings are the 3<sup>rd</sup> Thursday monthly.

The **Exeter Housing Authority Commission** manages a public housing program and the Housing Choice Voucher Program. EHA's mission is to provide safe, decent & affordable housing to income-eligible households. Funding is provided primarily from HUD and revenues derived from rents & fees. There are 5 members on the Board of Commissioners.

The **250<sup>th</sup> Celebration Commission** shall organize & coordinate thematic tributes to the American Revolution, the 250<sup>th</sup> anniversary of the signing of the Declaration of Independence & founding of the "Great Experiment" of democracy through consultation & coordination with NH's American Revolution Sestercentennial Commission, Town Depts, local businesses, non-profit organization & neighboring towns. Voting members include 6 residents & 1 Heritage Commission member.

# PATRIOTIC CEREMONY

*The NH Daughters of the American Revolution invite you to*

**save-the-date**

**Saturday, Nov. 2, 2024 @ 1pm**

(Rain or shine)

The NHSODAR invites you to a historic dual sign unveiling ceremony! The event begins at the Winter Street Cemetery and then will move (via trolley) to The American Independence Museum for the second half, followed by light refreshments at the Folsom Tavern. Witness a color guard, wreath laying, period costumes, and more!

## Did you know?

The Winter St. Cemetery in Exeter includes graves of 30+ Revolutionary War soldiers.

**Free maps distributed at event.**
